Standard Features

- An economical, rugged 1:2 folder, capable of folding 4 webs in broadsheet/tabloid at speed up-to 16,000 cph
- Mechanical Copy Counter
- Kicker for 25 copies
- Oil bath lubrication for drive side gears
- Main drive shaft coupled with splined hub at cylinder height for minimum backlash and smooth power transmission
- Slitter or perforator on roller as standard accessories
- Forward or reverse lap
- Single nipping
- Single RTF roller

OPTIONS:

Perforator or slitter on nipping roller | ¼ page folder

Standard Features

- 1:2 folder capable of folding 8 webs (with double RTF roller) in broadsheet/tabloid at speed up-to 30,000 cph
- RTF roller, cutting cylinder and jaw cylinder dynamic balance air former
- Double nipping roller
- Folder jam switch and single lights on the folder
- Main drive shafts with Thomas coupling at cylinder heights for minimum backlash and smooth power transmission
- Electronic copy counter and electronic good copy counter
- Kicker for 0-99 copies adjustable
- Centralized oil pressure lubrication for drive gears
- Slitter or perforator on RTF
- Grease lubrication for operating side bearings and cams
- Hardened and ground gears for folder drive and cylinder
- Lap adjustment -/+ mm

OPTIONS:

Double RTF rollers for running 8 web | ¼ page folder | Double Parallel folder | Cross perforator | Web under lead system | Clutch on operation side of folder | Cut-off control of folder of maximum four webs both sides | Single shot grease lubrication for operating side bearings and cams | Slitter of perforator on nipping rollers | Upper former | Fly wheel delivery for folded edge leading | Motorized cut-off controls

Standard Features

- Two sets of nipping rollers, double RTF roller for 8 webs as standard
- Dynamically balanced RTF rollers, cutting and Jaw Cylinders
- Pneumatic RTF trolley tyres
- Air former
- Folder jam switch and signal lights
- Electronic good copy counter and totalizer
- Case hardened gears for folder drive and cylinders
- Main drive shaft with Thomas coupling at cylinder height for minimum backlash
- Shear pin for folder safety
- Easy silencing of folder
- Electro-pneumatics kicker adjustable for batches 10-99 copies
- Lap adjustment +/- 10 mm

OPTIONS: Double parallel fold with or without cross perforator | ¼ Page Folder | Web under lead | Cut off compensator for maximum 8 webs (4 on reverse side and 4 on normal side) | Single shot grease lubrication for operating side bearings and cam | Fly wheel delivery for folded edge leading

Standard Features

- A heavy-duty tucker folder capable of folding up-to 10 webs (with balloon former) in broadsheet or tabloid at speeds up to 50,000 cph
- Spring loaded double nipping rollers
- Provision for Lap fold
- Long air former with conical nose (70 degrees) or short former
- Two RTF rollers with Pneumatic trolley
- Heavy duty timer belts for positive smooth drive of RTF and folder
- Fly delivery for folded edge leading
- Hardened and ground helical gear drive
- Electropneumatic kicker adjustable for batches between 10-99 copies
- Delivery Jam switch
- Easy silencing of folder
- Shear pin for folder safety

OPTIONS:

Upper former / balloon former
