THE PRINTERS HOUSE

ORIENT XPRESS

50,000 CPH

Single Width Web Offset Press

Production-grade web offset press

for book, commercial, security & newspaper printing

ABOUT ORIENT

THE PRINTERS HOUSE

Est. 1946

Founded by Sri K.D. Kohli — a freedom fighter and newspaperman — TPH Orient has grown into a diversified group and global leader in printing machinery manufacturing.

Now in its third generation under Rishab Kohli, Orient continues to set benchmarks in quality, engineering, and innovation.

80+

Years of Excellence

Continuous manufacturing since 1946

20,000+

Units Supplied

Printing units delivered worldwide

Manufacturing facility in Delhi NCR

PRODUCT OVERVIEW

The Orient X-Press

Orient X-Press is a single width, single circumference web-offset press with a speed of up to 50,000 copies per hour. The epitome of web offset printing — featuring full press automation with Siemens PLC controls, touch screen central console, automatic ink/water balance, and shaftless drive technology. Available in Mono Unit with Automatic Reel Changers and 4 High Tower.

Engineered for

FLAWLESS PRINTING

KEY ADVANTAGES

Built for Speed. Engineered for Reliability.

50,000

CPH

Maximum Speed

The fastest press in Orient's lineup — built for highest-volume newspaper and commercial production

FULL

AUTOMATION

Siemens PLC Control

Touch screen central console, automatic ink/water balance, one-touch printing, MMI at every station

24/7

SUPPORT

Global Service Network

10 branch offices across India and 30+ agents worldwide for round-the-clock assistance

Standard Features

- High grade stress-relieved cast iron body with Timken double row taper roller bearings
- Dynamically balanced solid stainless steel plate and blanket cylinders preloaded in nickel double row taper roller bearings
- Hardened and ground bushes in frames for plate and blanket cylinder sleeves
- Motorized ink fountain rollers and swing down lever style ink fountain
- On the nose, slit type plate lock up system with 2 Nos pin for quick positioning; half-plate possible
- Narrow gap blanket lock-up system
- Motorized side register system for both plate cylinders
- Motorized running circumferential register for both plate cylinders
- Variable speed motorized brushmist dampening system
- Pneumatic on/off for Main impression/Ink feed/Ink form & Damper form
- Infra red web break detector

Standard Features

- Motorized oil pressure lubrication for drive gears and bearings
- Motorized automatic grease lubrication for operating side
- Centralized water circulation system with chiller
- PCB card for dampener motor speed control
- Central Operating Console with touch screen
- Cable management system
- Bustle wheel for fan out correction
- Ink and water balance through touch screen and PLC
- Reverse inching
- MMI (Man Machine Interface)

PRESS AUTOMATION

Siemens PLC-Driven Intelligence

One Touch Printing

Complete press functions switched on sequentially via pre-defined logic after attaining predefined speed. Reduces waste and achieves consistent print quality.

Central Console

Siemens Colour Touch Screen controls all machine functions — registration, ink/water, pagination. Local MMI at each station for parallel control.

Ink/Water Balance

Achieved through Siemens S7-400 PLC with 3 programmable standard curves based on paper quality, ink quality, and other press inputs.

Hardware

Siemens/Rex Roth/Mitsubishi DC Digital Drive for main motor. S7-200 local PLCs, S7-400 master processor for synchronization and data transfer.

TECHNICAL SPECIFICATIONS

Orient X-Press 50,000 CPH

Parameter	533mm	546mm	578mm
Printing Speed (CPH)	50,000	50,000	50,000
Paper Width	700-915mm	700-915mm	700-915mm
Reel Diameter Max.	1070mm (42")	1070mm (42")	1070mm (42")
Printing Plate Width	915mm	915mm	915mm
Plate Length — Unbent (Slit)	564mm	577mm	609mm
Plate Thickness	0.30/0.28mm	0.30/0.28mm	0.30/0.28mm
Rubber Blanket Width	915mm	915mm	915mm
Blanket Length (Narrow)	612mm	625mm	657mm
Blanket Thickness w/ packing	2.1mm	2.1mm	2.1mm
Blanket Thickness W/O packing	1.7mm	1.7mm	1.7mm
Printing Length Max (Narrow)	518mm	531mm	563mm
Non-Printing Gap (Narrow)	15mm	15mm	15mm
Paper Grammage (Uncoated)	38-100 g/sqm	38-100 g/sqm	38-100 g/sqm

All specifications subject to change. Contact Orient for detailed configuration drawings.
Actual speed and performance may vary depending on operator skill, substrate type, and application.

WHY ORIENT

Why Orient?

Superior Print Quality

Line contact technology with excellent crisp prints. Superior proprietary print unit design with custom bearer and gear designs — low backlash with 2 micron accuracy.

Higher Grade Metallurgy

Orient uses higher grade of internal metallurgy than any of its competitors — leading to a more robust and long-lasting machine.

Fully Backward Integrated

Everything is made in-house so the press is fully customizable. Due to our history we ensure excellent metallurgy and market-leading web handling.

Full Service & Support

Full backward integrated in-house manufacturing with service and support staff across the country in 10 branches and 60+ countries worldwide.

Excellent Resale Value

Orient machines hold their value — excellent secondhand resale is a testament to build quality and market reputation.

A Legacy of Excellence

The oldest and first manufacturer in India — 80+ years of printing expertise with over 20,000 units supplied to 60+ countries.

OUR DISTINGUISHED PATRONS

Equipment you can rely on

...and many more across India, South Asia, Africa, the Maericas, and the Middle East.

With over 20,000 printing units supplied worldwide, Orient enjoys strong relationships with some of the most distinguished commercial printers, publishers, and news houses globally.

S U P P O R T

24/7 Technical Support

Our service team across India and worldwide provides excellent support for all your technical requirements. Customer satisfaction is our priority — with prompt site visits, 24/7 online support, and a partner who will support you when you need it most.
