ORIENT

THE PRINTERS HOUSE

The Printer's House (TPH) Orient Group is a diversified group of companies founded in 1946 that is an industry leader in the manufacturing and supply of engineered products from India.
K.D. Kohli, a freedom fighter and newspaperman, started TPH Orient Group in 1946. Now in its third generation under Rishab Kohli, Orient has carved a formidable reputation as a quality-conscious, technology-driven manufacturer — exporting to over 60 countries worldwide.

80+
Years of Excellence since 1946

20,000+
Machines Installed

60+

20
Acre Campus

OrientJet C-Series

The C-Series is Orient's line of aqueous inkjet presses for book, commercial, newspaper, and government document segments — available in mono and colour variants with customizable finishing.

Applications

Up to 150 m/min

RESOLUTION

1200 x 1200 dpi

WEB WIDTH

324 – 1512 mm

INK

Aqueous Bulk

TECHNOLOGY

Kyocera RC Industrial Piezo

Custom Print Heads

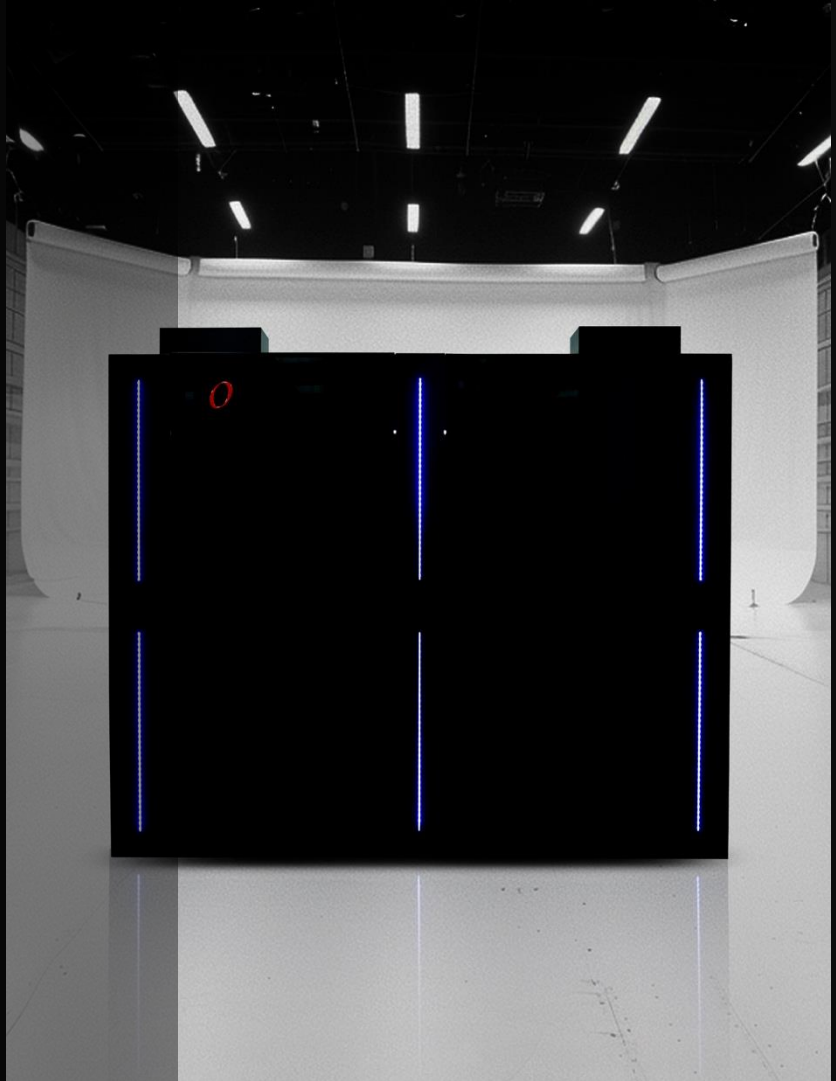
Custom high-end Kyocera RC piezo print heads, specially engineered and manufactured exclusively for Orient machines — delivering superior precision, longevity, and output quality.

Industrial Construction

Stainless-steel laminated construction with monolithic ceramic piezo actuators. Built-in heater and water cooling for consistent drop placement across long runs.

~25,000-Hour Life

Multi-year service life under continuous production duty. Bulk aqueous ink — open system at competitive economics with no proprietary lock-in.



APPLICATIONS

One Press.
Multiple Markets.

Books & Publishing

Mono and colour book blocks, educational material, directories

Newspapers

Short-run regional editions, supplements, special inserts

Security Printing

Question papers, answer sheets, classified printing with VDP

Commercial Print

Brochures, catalogues, direct mail, transactional documents

Variable Data

Barcodes, QR codes, serial numbers, security elements

Custom Finishing

Sheeter, folder, rewinder, perforation, perfect binding

PRODUCTION

Built for 24/7 Industrial Duty

Engineered for continuous operation with optimised production speeds and consistent performance across extended runs.

Production-Grade Output

Stable, repeatable quality at speed. Higher throughput, dependable uptime, and confidence in daily production planning.

Brand-Ready Quality

Sharp text, smooth gradients, dense solids at up to 1200 x 1200 dpi. Full VDP, QR, barcode, and security element support.

True Versatility

Uncoated & coated stocks, newsprint, bond, offset, book-grade — 40 to 120 gsm. Web widths from 324 mm to 1512 mm.

Technical Overview

Parameter	OrientJet C-Series
Printing Technology	Aqueous Inkjet Digital Printing
Colour Configuration	Monochrome and 4 color (CMYK) – Simplex and duplex printing
Print Resolution	600 x 600 dpi & 1200 x 1200 dpi variants
Print Speed	1200 x 1200 dpi : up to 80 m/min | 600 x 600 dpi : up to 100 m/min (Speed varies by print head — ask your sales representative)
Optional speed variations	Optional: 1200 x 900 dpi = 120 m/min | 1200 x 600 dpi = 150 m/min
Drying options	IR & Hot air
Maximum machine width	Min 330mm - Max 1200 mm(custom widths configurable depending on specifications and application)
Maximum imaging width	Min 324 mm— Max 1180 mm (custom widths configurable depending on specifications and application)
Substrate Types	Uncoated & coated paper, newsprint, bond, offset, book-grade stocks etc.
Substrate weight	(40–250 gsm depending on type of substrate, higher thickness can be configurable with a high thickness kit)
Ink	Orient Jet Aqueous ink
Print Heads	Custom high-end Piezo DOD aqueous inkjet print heads, specially engineered exclusively for Orient — superior precision, longevity, output quality
Variable Data	Barcodes, QR codes, serialization, security elements, full VDP
Max Roll Diameter	1200mm— configurable per specification
Software	Custom Orient Jet software
Hybrid capabilities	Full Hybrid options for customers with the Orient XPRESS Flex press technology. Hybrid printing, finishing , coating (pre/post) etc. all configurable.
Finishing options	multiple finishing options including sheeting, folding etc.
Optimal environmental conditions	40-60% Rh Humidity , dust free environment preferred
Web management features & Customization	Web cleaner, anti static, fully servo, tension control, web aligner, splice table, auto ink consumption detection, web break sensor. Fully customizable — available in custom widths and sizes to match your production needs
Dimensions and weight	Machine dimensions, weight, power requirements, and roll weight vary by configuration (web width, colour count, etc). Detailed general arrangement drawings, electrical layouts, and foundation plans are provided with the quotation

Actual speed and performance may vary depending on operator skill, resolution, substrate type, and application. All specifications subject to change. Contact Orient for detailed configuration drawings.

OUR DOMESTIC & GLOBAL PRESENCE

OUR PATRONS

With over 20,000 printing units supplied worldwide TPH enjoys strong relationships with some of the most distinguished & reputed printers around the globe.

MANUFACTURING FACILITIES

The TPH Orient group manufacturing campus spans 20 acres in area with lush green landscape

The campus houses various manufacturing units including a CNC workshop fitted with state of the art CNC's for mechanical engineering purposes. Additionally our numerous testing and quality control equipment and pool of engineers allows us to provide world class products globally.
